

# PAUL FEDCHAK

FSA, MAAA

Principal and Consulting Actuary

paul.fedchak@milliman.com

+1 317 639 1000

## Current Responsibility

Paul is a consultant in the Indianapolis office of Milliman. He joined the firm in 2007.

## Professional Work Experience

Paul consults on life insurance and annuity products, market entry and innovation. He has been involved with universal life, with a focus on secondary guarantees, indexed universal life, term and whole life. He has worked with these products in the contexts of product development and implementation, VM-20 modeling and implementation, AG 48 and assumption development. Paul also has robust experience with MG-ALFA modeling software.

Paul is co-author of the SOA research report 'Impact of VM-20 on Life Insurance Product Development' and two of the SOA E-courses in the 'PBR Professional Development Series'.

Paul is a former L&A Symposium Committee Chairperson, former Product Development Section Council member and an active SOA researcher, speaker, and article writer.

Before joining the firm, Paul worked for American United Life, initially modeling group annuities and subsequently as a life insurance pricing actuary. He has experience with permanent participating life insurance, long-term care combination products, and variable annuity guarantees and past experience with TAS and Prophet modeling software.
