Current Responsibility

Melanie McFaul is an actuary with Milliman's Property and Casualty Orange County office. She focuses on InsurTech solutions and advanced ratemaking techniques.

Professional Work Experience

Melanie's areas of expertise include:

- Developing commercial and personal lines rates using advanced ratemaking techniques, including rates for emerging markets and technologies with limited data
- Preparing rate and rule filings to facilitate efficient multistate regulatory reviews, including those for rigorously regulated environments
- Developing insurance products, including underwriting and filing support, for existing and emerging markets
- Designing and automating pricing and reserving insurance processes to improve efficiency and profitability
- Pricing catastrophe risks, especially wildfire risks
- Developing predictive models

Prior to joining Milliman in 2021, Melanie was a commercial lines account manager at HUB International Insurance Services where she specialized in film and television risks, managing a book of high-profile accounts, including Fortune 500 motion picture studios.

Professional Designations

- Fellow, Casualty Actuarial Society
- Member, American Academy of Actuaries

Education

- MS, Actuarial Science – Lisbon School of Economics and Management
- BS, Mathematics – California State University, Long Beach
